

Proposal for sculptural elements
in the memory of

CARL LUTZ

BY LEV ABRAMZON
SCULPTOR & ARTIST

Welcome

My name is Lev Abramzon, sculptor and artist.

As the founder of New Safari and its product developer for over 30 years – my company is providing the need for creative and original design and branding of parks, city entrances, streets and squares across Israel.

If you are a designer, an architect or landscape architect - you will find our products range inspiring for the upgrading of the urban environments or the interior spaces you plan.

If you work with municipal authorities - I invite you to be introduced to the way many cities across the country have already implemented my sculpting products in order to upgrade, design and brand their urban spaces.

And if you own an office, a company or a corporation - You are welcome to get familiar with the more luxurious sculpture products and furniture that can be used as a visual icon and on your

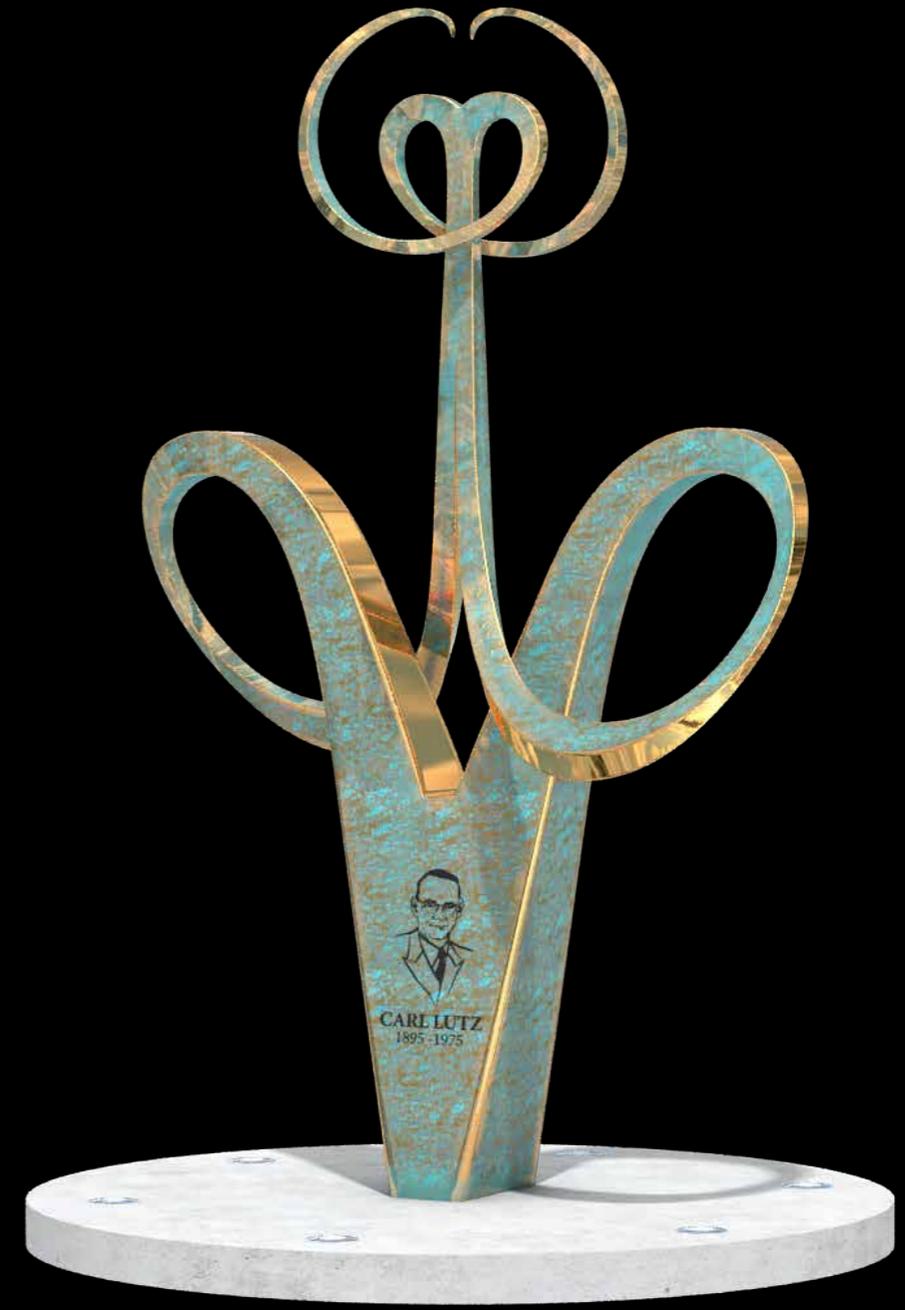

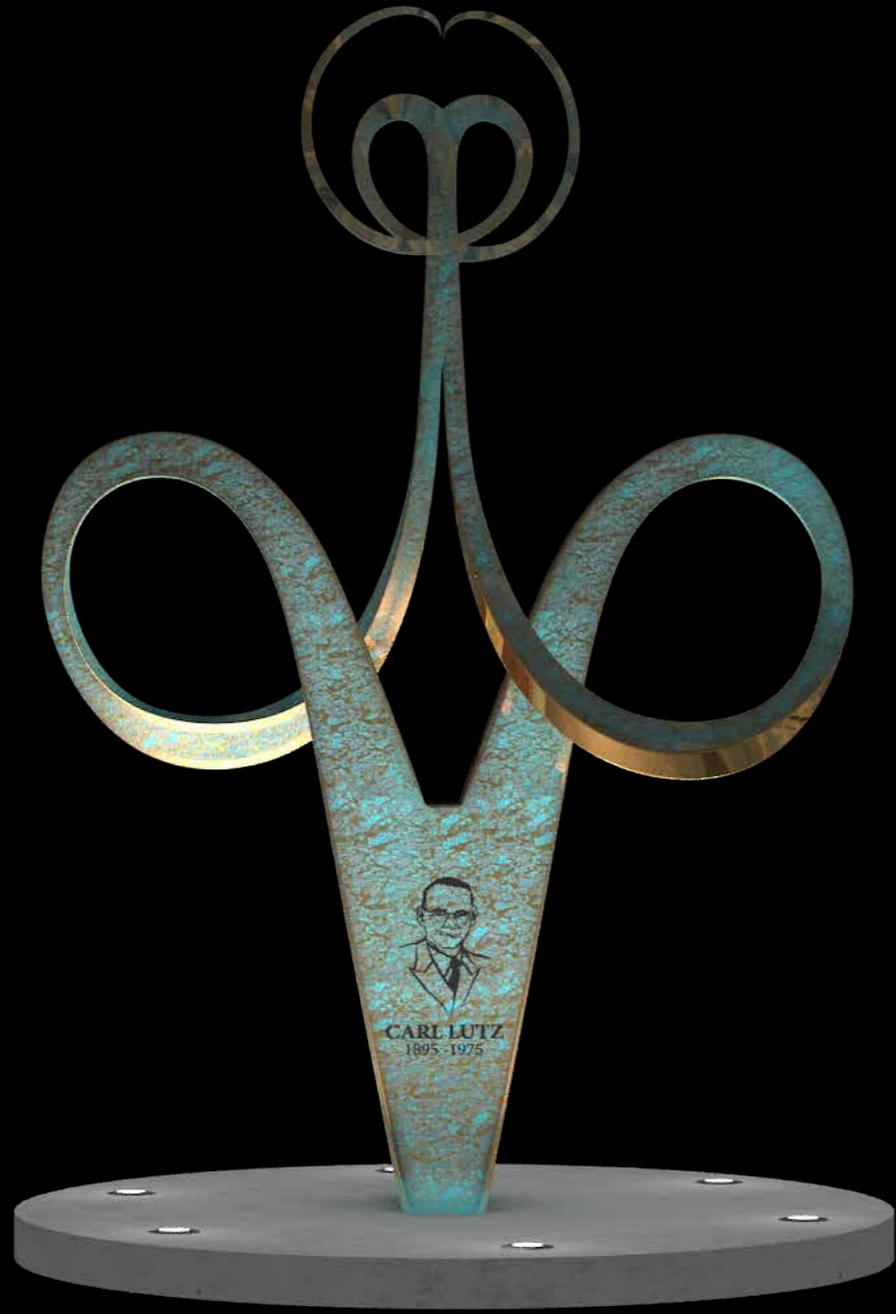

Acronym

This sculpture uses Carl Lutz's acronym in its shape. It integrates his initials in order to create the whole shape. Thus stating that the memory of his rescue actions created something new - new lives.

The sculpture comes in bronze, 316L stainless steel with high grade polishing or patina bronze.

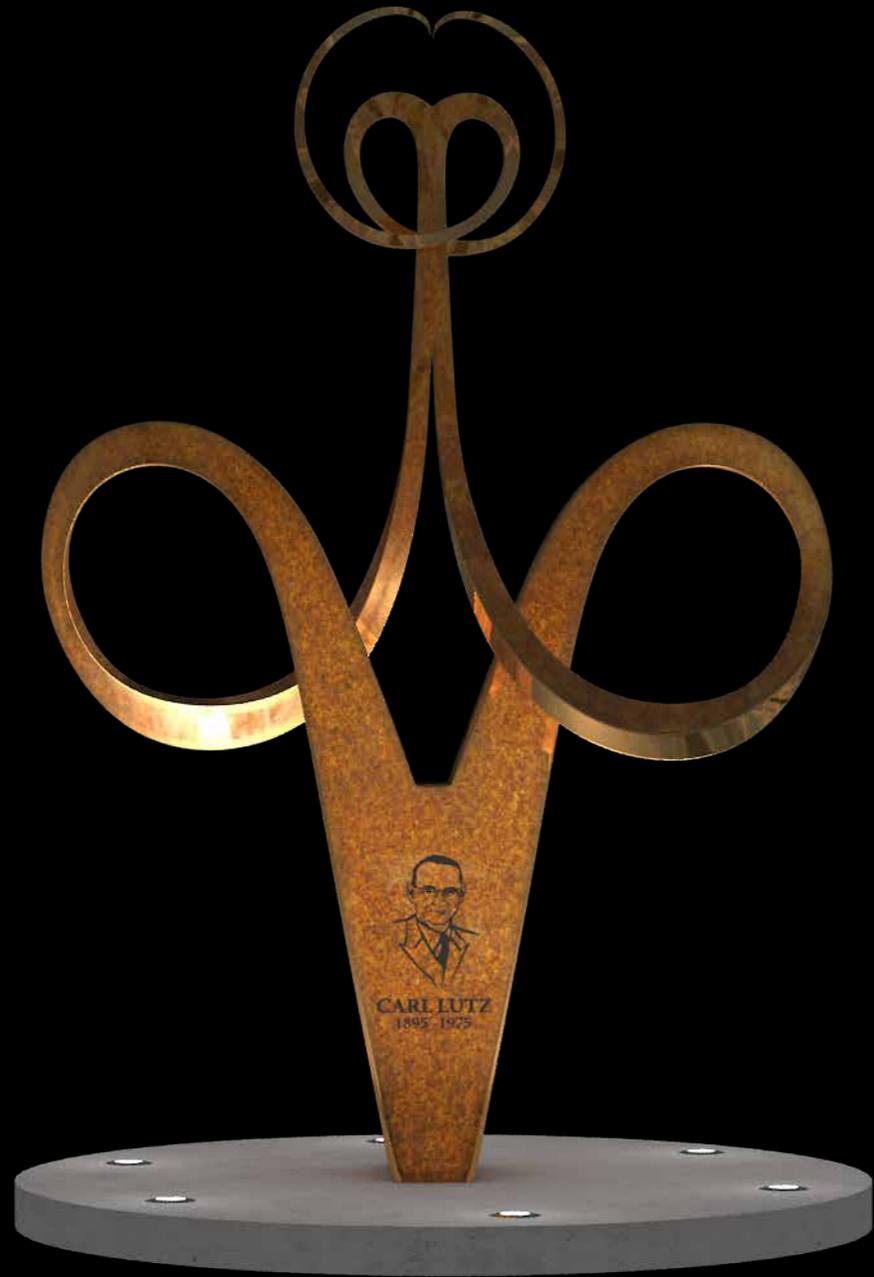

Recommended height for sculpture - 12 FT

ACRONYM

Materials: Bronze with green patina

ACRONYM

Materials: Bronze with brown patina

ACRONYM

Materials: 316L stainless steel with high grade polishing

Hear O Israel

This sculpture draws its inspiration from the most common Jewish prayer, which is used usually in desperate times:
“Hear O Israel the Lord our God the Lord is One”.

It takes the form of an eternal flame – representing the eternal believe in Jehovah - in which is rocked a diamond shaped ball. The latter representing the longevity of the Jewish people.

This sculptor comes in a smooth or textured bronze coating.

Recommended height for sculpture - 10 FT

HEAR O ISRAEL

Materials: Bronze with brown patina
Ball: Cast aluminum or stainless steel

Silhouette

This sculpture represents an abstract silhouette of a face. It may remind the silhouette of Lutz's face or the face of the people he tried to save.

Thus, broadening and uniting the memory of the saver with the ones been saved or tried to be saved by him – stressing both sides humanity.

This sculptor comes in a stainless steel coating, with or without the water effect which emphasizes the element of life.

Recommended height for sculpture - 15 FT

SILHOUETTE

Wing

This sculpture takes inspiration of one of the oldest concepts of Jewish believe: Ha-Shchina or in English translate, the Divine spirit. One of the meanings of this concepts is the revelation of God in a realm humans can recognize him.

Thus, referring to Lutz's actions during the Holocaust as a revelation of God in human life while times were desperate.

The sculpture is an abstract representation of a wing, which comes in a smooth bronze or stainless steel coating.

Recommended height for sculpture - 12 FT

Important technical facts about the sculptured elements

All the sculptures made by New-Safari Environmental Sculptures are coated with anti- corrosion special coatings, thus having longevity in outdoor and sea related environments. Those coatings are also resistant to UV radiation and allow us to create sculptures needing no maintenance and remaining looking impressive throughout the years.
