

Proposal for sculptural elements
in the memory of

CARL LUTZ

LEV ABRAMZON
SCULPTOR & ARTIST

To the respected Mid-Atlantic - Eurasia Business Council,

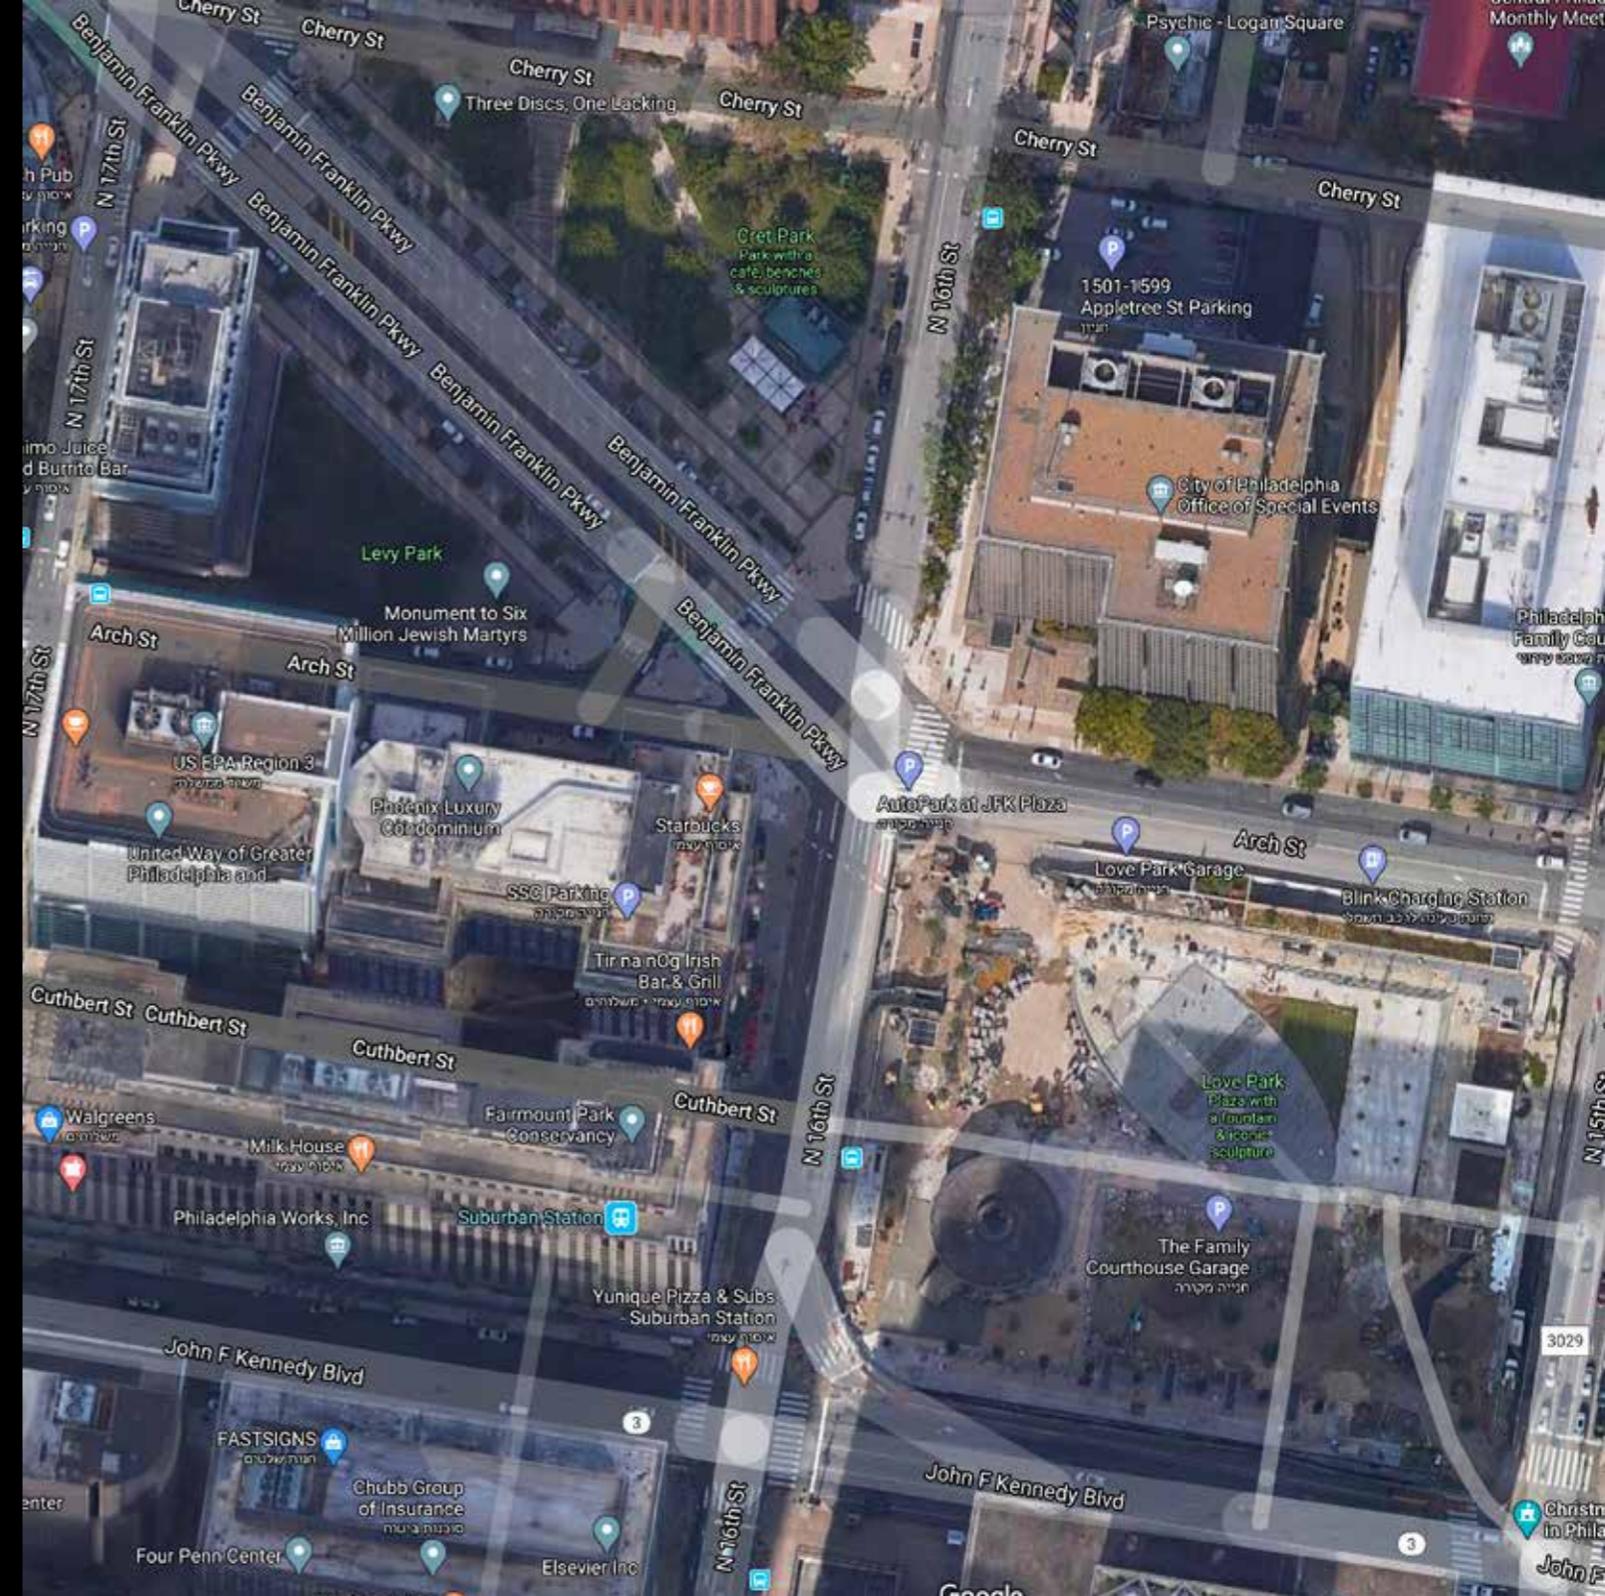

My name is Lev Abramzon, sculptor and artist. As the founder of New Safari and its product developer of over 30 years – my company meets the need for creative original design in the branding of parks, city entrances, streets, and squares in Israel and across the world.

If you work with municipal authorities - I invite you to see the way many cities have already implemented my sculpting products in order to upgrade, design and brand their urban spaces.

I am honored to present my ideas for a sculptured monument to celebrate the memory of Carl Lutz's rescue operation of Jews during the Holocaust.

As an active sculptor based in Israel, I have had many years of experience working on physical monuments and urban sculptures to shape the collective memories of our society's history and culture.

I hope some of my ideas may be translated into reality and placed in appropriate spaces in order to allow people to embrace their past and to honor the exceptional bravery of Carl Lutz.

Acronym

This sculpture uses Carl Lutz's acronym in its shape. It integrates his initials in order to create the whole shape. Thus stating that the memory of his rescue actions created something new - new lives.

The sculpture comes in bronze

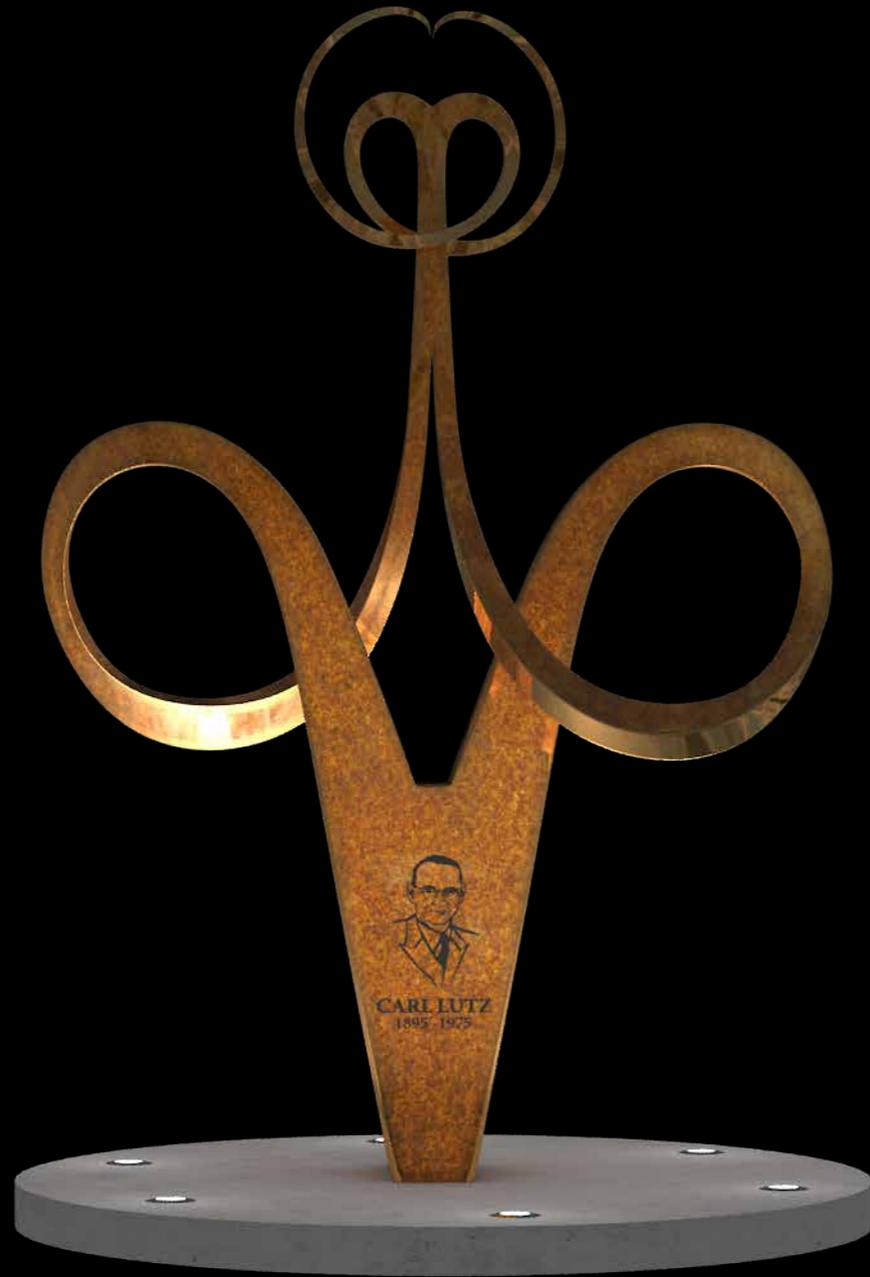

Recommended height for sculpture - 12 FT

Pedestal height - 2 FT

↓ CAR PARK ↗

ACRONYM

Materials: Bronze with brown patina

Safeness House

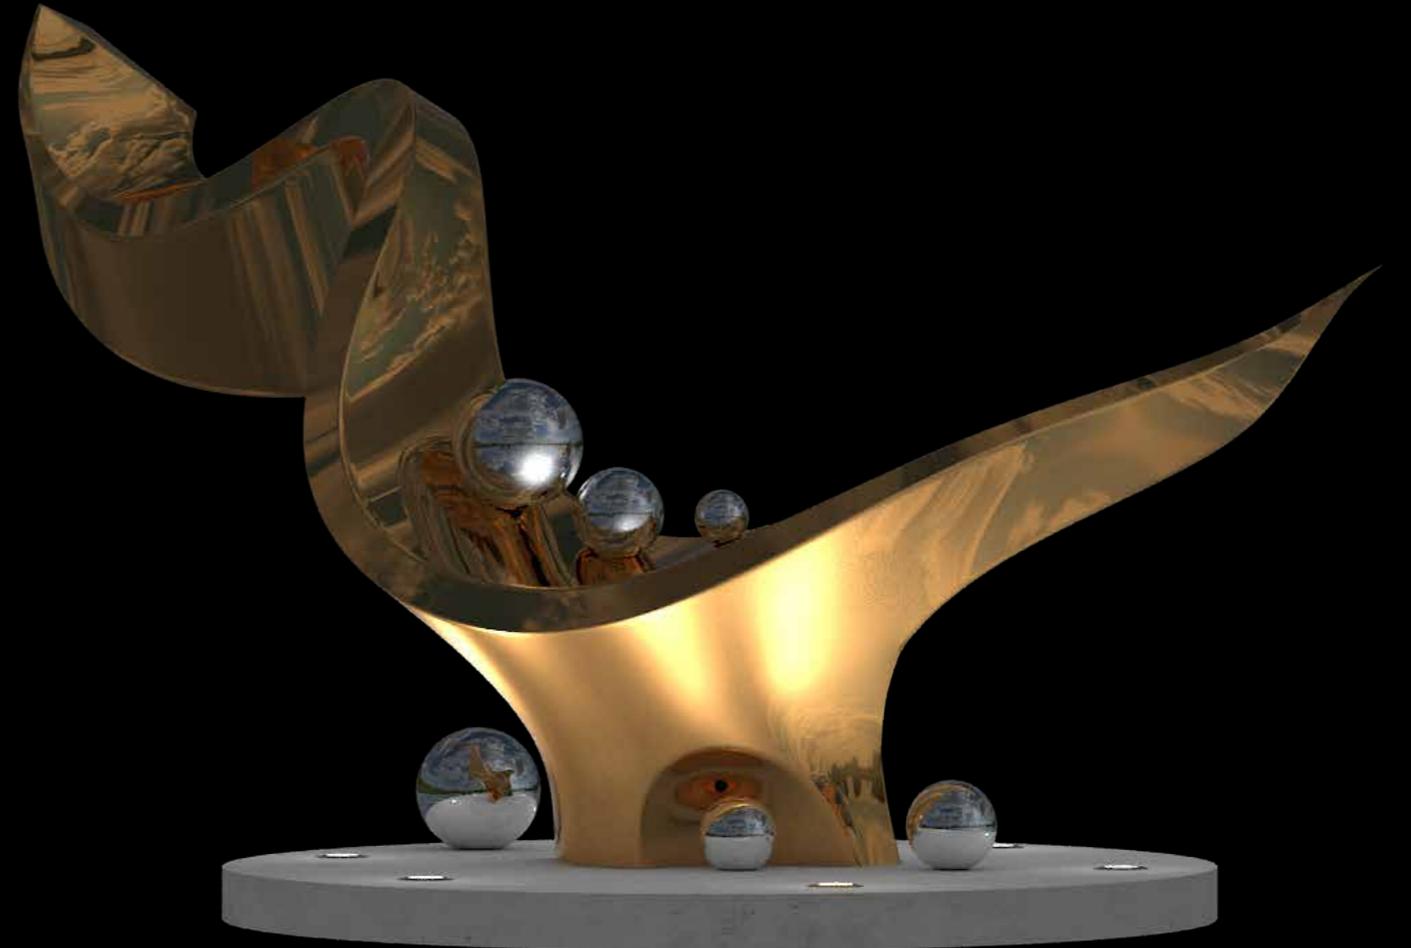

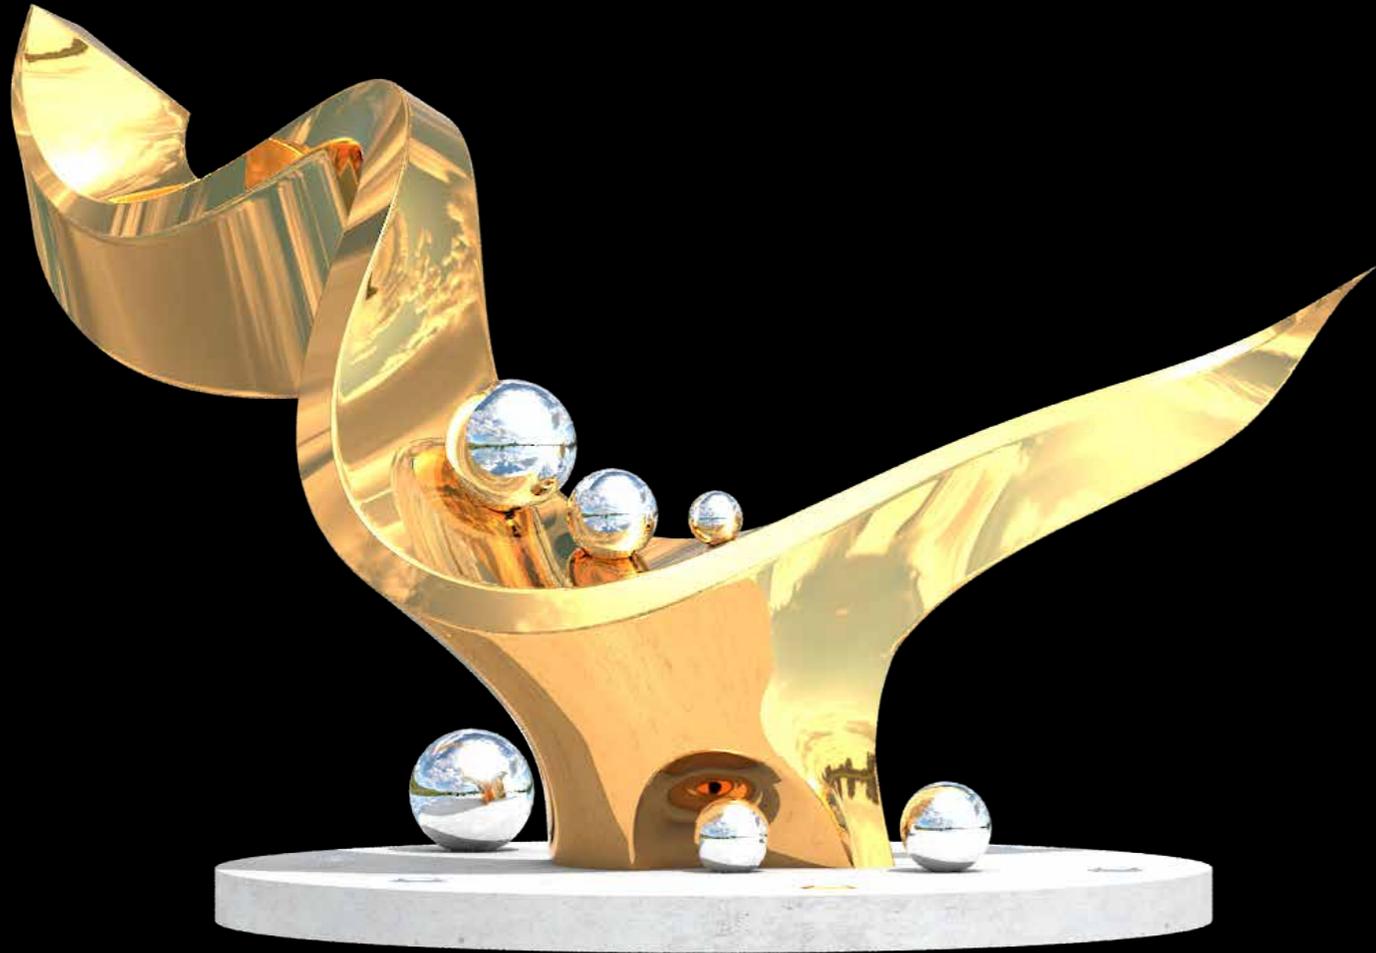

This sculpture is resembling the idea behind the sculpture Wing #1, but adds ball-like elements which represent the seeds of life that came to be thanks to Lutz's saving and rescuing actions.

This sculptor comes in a smooth, textured or patina bronze coating.

Recommended height for sculpture - 7 FT / long - 11 FT

SAFENESS HOUSE

Hear O Israel

This sculpture draws its inspiration from the most common Jewish prayer, which is used usually in desperate times:

“Hear O Israel the Lord our God the Lord is One”.

It takes the form of an eternal flame – representing the eternal believe in Jehovah - in which is rocked a diamond shaped ball.

The latter representing the longevity of the Jewish people.

This sculptor comes in a smooth or textured bronze coating.

Recommended height for sculpture - 10 FT

MEMORIAL PLAQUE

HEAR O ISRAEL with memorial plaque

Silhouette

This sculpture represents an abstract silhouette of a face. It may remind the silhouette of Lutz's face or the face of the people he tried to save.

Thus, broadening and uniting the memory of the saver with the ones been saved or tried to be saved by him – stressing both sides humanity. This sculptor comes in a stainless steel coating, with or without the water effect which emphasizes the element of life.

Recommended height for sculpture - 15 FT

SILHOUETTE

Materials: 316L stainless steel with high grade polishing

SILHOUETTE
fountain

MEMORIAL PLAQUE

Wing

This sculpture takes inspiration of one of the oldest concepts of Jewish believe: Ha-Shchina or in English translate, the Divine spirit. One of the meanings of this concepts is the revelation of God in a realm humans can recognize him.

Thus, referring to Lutz's actions during the Holocaust as a revelation of God in human life while times were desperate.

The sculpture is an abstract representation of a wing, which comes in a smooth bronze or stainless steel coating.

Recommended height for sculpture - 12 FT

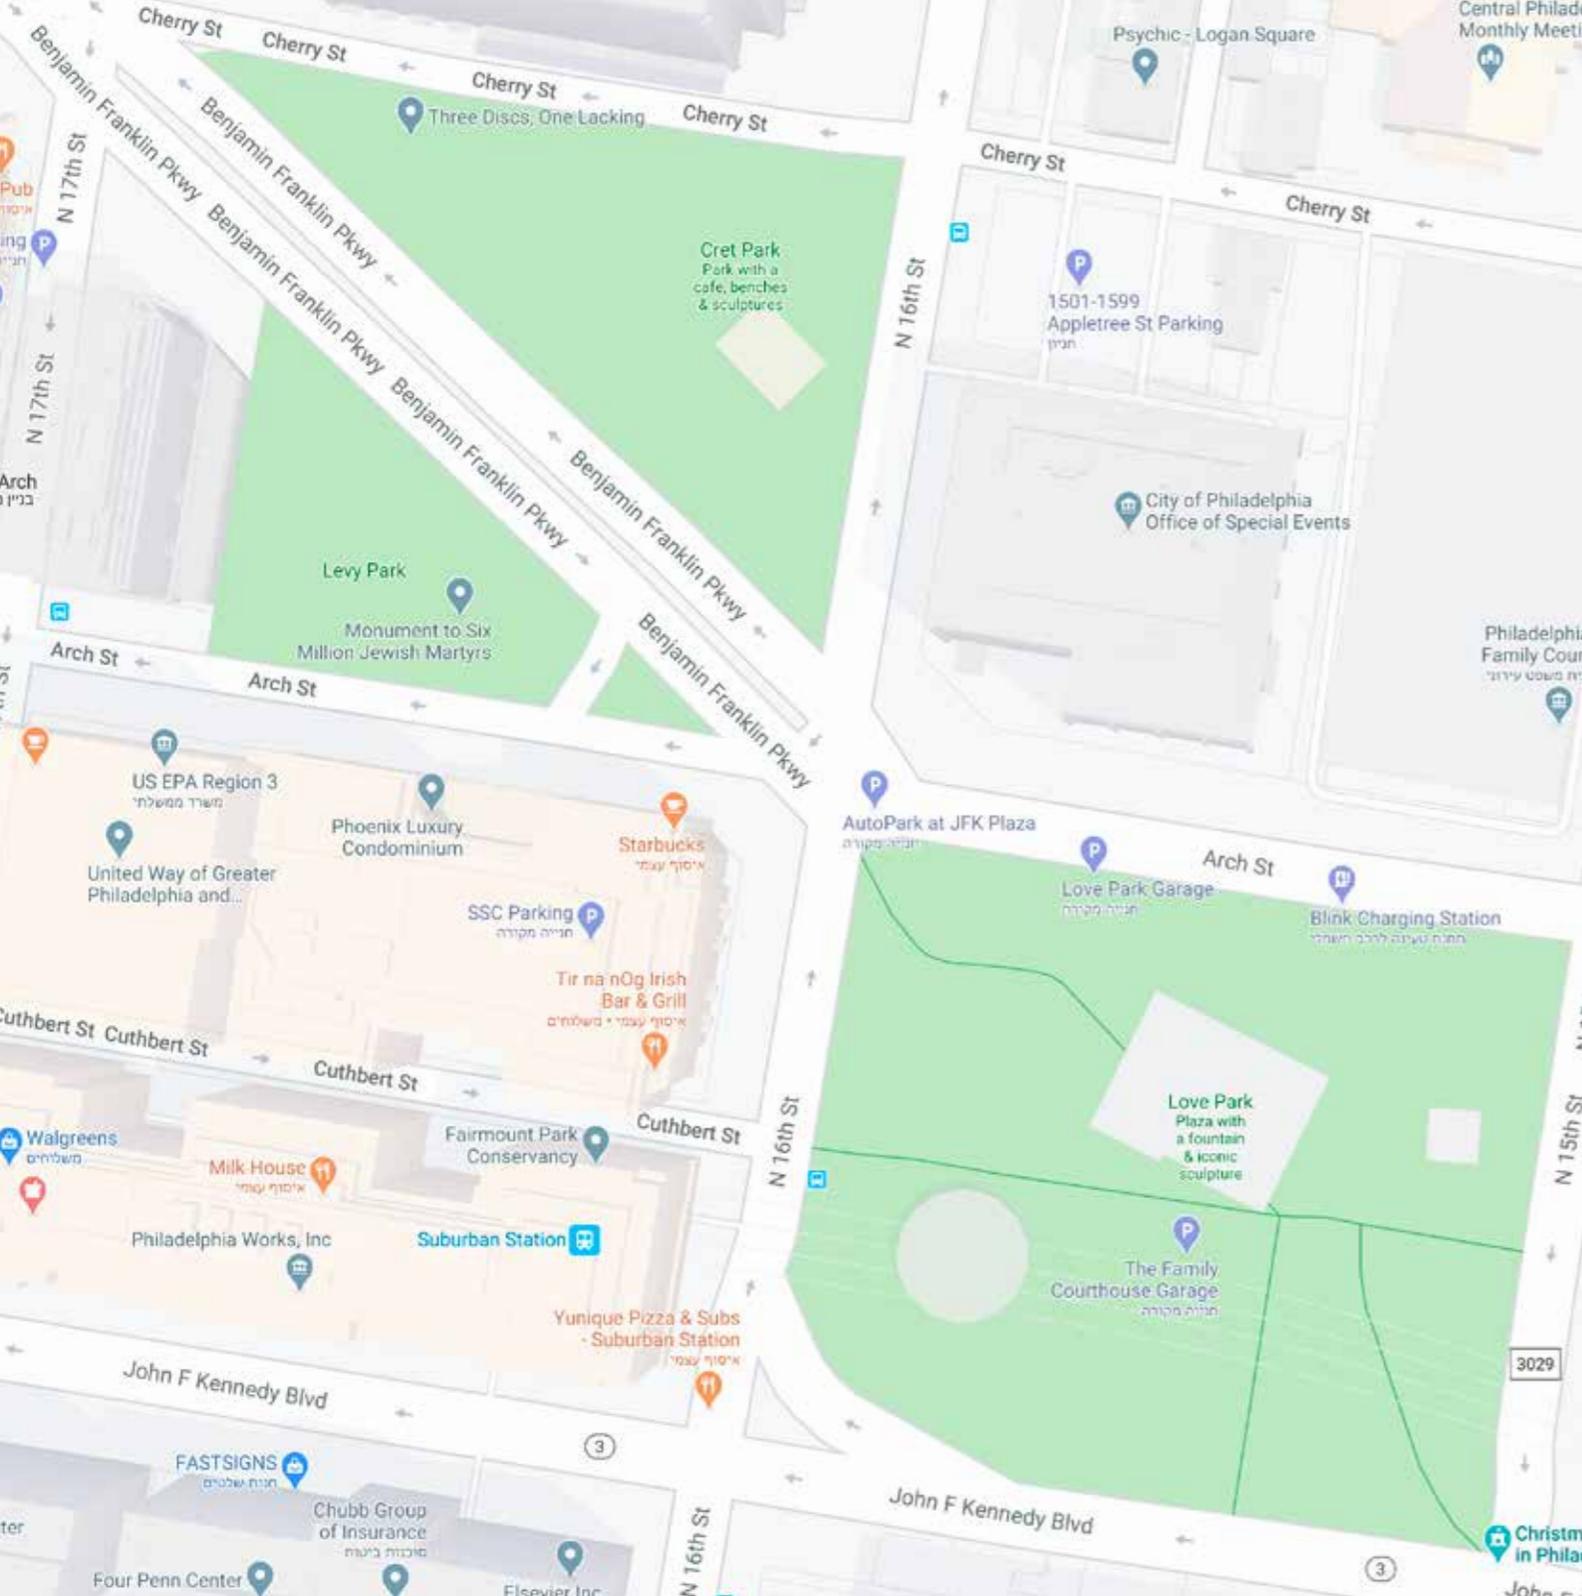

WING

Materials: bronze with high grade polishing

WING

Important technical facts about the sculptured elements

All the sculptures made by New-Safari Environmental Sculptures are coated with anti-corrosion special coatings, thus having longevity in outdoor and sea-related environments. Those coatings are also resistant to UV radiation and allow us to create sculptures needing no maintenance and remaining looking impressive throughout the years.
